

Field Work Force Solution to one of the best AMI roll out in India

The Field force solution was used to survey and roll out all types of meter across 6 packages in Assam covering more than 2 million meters

Highlights

- Offline Solution for Survey ,Installation and Maintenance of LT and CT operated meters in Feeders , substation and consumers
- Peak users more than 200 field Installers
- Significant increase in accuracy and elimination of data errors compared to first phases thus reducing manual work
- Robust solution ,no data loss , withstood high field force turnover , low bandwidth networks and multi-party involvement in managing the Infrastructure and app Distribution
- Seamless Integration to MDM and TCS/Utility backends
